

Cell Models

Draw two eukaryotic cells; one plant and one animal.

Draw, identify, and explain the function of the following:

nucleus (4 points)

chloroplast (2 points)

mitochondrion (4 points)

cell membrane (4 points)

cell wall (2 points)

Use a different color for each organelle.

Add four more organelles. (4 points)

Use your textbook or iPad apps (icell and cellexplorer) for information.
